Consent Order SRD-130

RDMS DocID 00100504

APPROVAL OF REVISED SCHEDULE

The Permitting, Enforcement & Remediation Division of the Bureau of Water Management (the Department) has reviewed the letter dated December 7, 2001 prepared by Loureiro Engineering Associates, Inc. on behalf of United Technologies Corporation, Pratt & Whitney Division, which requests approval of a revision to the approved schedule for completion of the remedial actions required at the above referenced site. The remedial actions are being performed pursuant to Consent Order SRD-130 issued August 1, 2001, and in accordance with a remedial action work plan approved by the Department August 3, 2001. The revised schedule was submitted in accordance with paragraph B. 18 of said consent order.

The revised schedule is hereby approved.

Nothing in this approval shall affect the Commissioner's authority to institute any proceeding, or take any action to prevent or abate pollution, to recover costs and natural resource damages, and to impose penalties for violations of law. If at any time the Commissioner determines that the approved actions have not fully characterized the extent and degree of pollution or have not successfully abated or prevented pollution, the Commissioner may institute any proceeding, or take any action to require further investigation or further action to prevent or abate pollution. This approval relates only to pollution or contamination identified in the above referenced plan.

In addition, nothing in this approval shall relieve any person of his or her obligations under applicable federal, state, and local law.

If you have any questions, please contact Richard Hathaway of my staff at (860)424-3780.
